

Where DO Easter Eggs COME FROM?

by Mark Cox

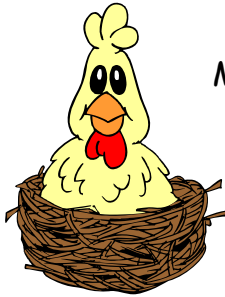

I asked my friend, Eddy about Easter eggs.
I wanted to know.
"Do they come from Easter Island?"
"Or from under the snow?"

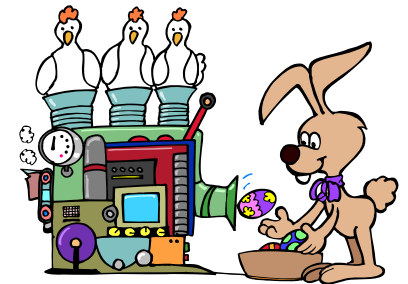

I asked some more questions.
"Do they come from a store?"

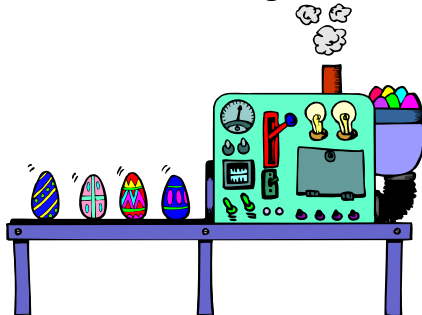

Maybe, there's one special chicken.

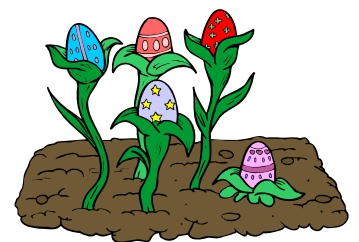

Or maybe there's more.

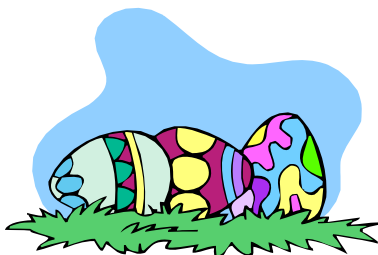

Here's another idea.
A machine might make a lot.

They might come from the ground.
Then again, they may not.

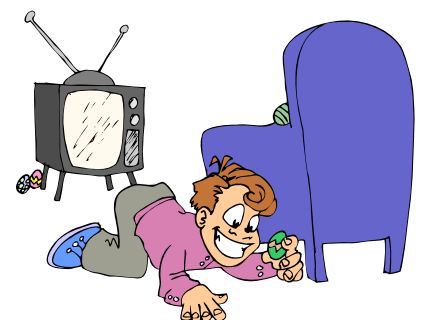

From the ground or the snow? We may never know.
But, don't worry.

On Easter morning they'll be ready.

I'll be Easter egg hunting.
And, so will my friend, Eddy.

Happy Easter!
