

The following Perfect parks were submitted by grade 6 English second language students from Vaudreuil, Dorion in the province of Quebec.

At my amusement park there is a paintball park and a roller coaster in the back. In the middle of the park there are water slides and a candy stand. Between these two activities there are bumper cars and an arcade with 100 different games to play. In front of my park, there is a wave pool that has tropical decorations. Beside the wave pool there is a go-kart park, with 10 kilometers of track to ride on. At the end of this road there is a big skate park with a half pipe and rails.

One day at my park is not enough.

Rules:

You can bring your skate board.

You can bring your swimming suit.

You can't smoke.

You can't do flips.

Mathieu.

Welcome to our perfect park. First of all, you come in from the huge gate. When you come in, there are all the game stands with the dunk stand on your left and the kissing booth on your right. Right beside the dunk stand, there are the bumper boats. If you keep walking, you might run into some clowns. A little farther, there is an enormous roller coaster. On it's right, there is zig-zag go -kart and a ferris wheel. In the middle of the park are all the restaurants, the washrooms and a very relaxing spa for the parents. After a little break, you could go see some of our shows in the circus tent. Finally, in the middle of the park, there are all the children's attractions like a petting zoo and a little park with a candy store. And that is our perfect park.
